Dear Andreas,

I want to take this opportunity to congratulate you and your talented staff of wood & steel craftspeople on the fine job that you have done for Blackwood Bros. The quality of the finished product, from the selection of the finest sleeper wood in a particular species to the execution of each and every design detail, has made this project of award winning stature and we thank you for that.

Our list of prestigious clients have commented on the perfect execution of elaborate woodwork. To include custom metal structures and paneling, delicate joinery and custom shelving have worked beautifully together. From the rendering of custom made store fixtures: all these elements have been finished to the highest degree by your talented staff.

The flawless execution of our custom designs has lead to a positive working environment and satisfied clientele. We can ask for nothing more and thank you for your continued performance.

My heartfelt thanks goes out to each of you at Reclaimed Woods for a job well done and for all your dedication in executing fine work of the highest standard!

Best Regards  
Craig Smith
