

A Letter of gratitude to Reclaimed Woods

Nvirobuild was asked to construct a lookout point on a mining exploration site for a high profile visit from the client. The time allowed for completion of the work extremely limited and if any challenges regarding sourcing of material for the project was encountered, the visit would not have been possible.

Andreas Hansen (Reclaimed Woods) was contacted to supply sleepers and other sleeper furniture for the project to ensure that the end product would look professional and corporate. Even when Andreas and his team was asked to deliver the order in only two and a half days they took on the challenge and exceeded expectations on both quality and dedication

From NVIROBUILD PTY LTD we would like to thank Andreas and his team for exceptional dedication in assisting us on delivering on our product and completing a successful project. Without the exceptional work from Reclaimed Woods we would not have had the same end result.

We here at NVIROBUILD would highly recommend Reclaimed Woods for quality work. If Andreas and his team shows the same dedication we believe that Reclaimed Woods will prosper for many more years

Please feel free to contact us for a personal reference on our experience with Reclaimed Woods on [info@nvirobuild.co.za](mailto:info@nvirobuild.co.za) Please address the request to the NVIROBUILD Director for correspondence

NVIROBUILD wish the team of Andreas all the best in future business and they can be sure that we will recommend them if they keep up good work

Regards

JS Lambrechts  
Nvirobuild Director
